

AXICA CATERING: FINE DINING IN SELECTED LOCATIONS

Our elegant and exclusive location right next to the Brandenburg Gate has played host to many first class national and international events including: congresses, receptions, gala dinners and film premieres over the last ten years.

The individual post modernist expressionism of world renowned architect Frank O. Gehry is all too apparent and creates a spectacular atmosphere which promotes new perspectives and ideas.

Within this inspiring atmosphere our catering team let their creative and gastronomic juices flow to produce extravagant and surprising dishes.

And now guests can enjoy our highly esteemed cuisine outside of our hallowed premises. The venue may change but the credo stays the same: Fascination from the first point of contact.
